## Aspen Family Care Financial Policy

**Patient Name:** \_\_\_\_\_ **D.O.B.** \_\_\_\_\_

Welcome to Aspen Family Care, PLLC. We are committed to giving you the best care possible. We would like to take this opportunity to inform you of our office policy.

We will bill insurance claims as a courtesy to our patients provided we have your current insurance information, if not; you will be responsible for payment at the time of service. We accept payment from insurance companies, but require that you pay your portion, including co-pays, deductibles or coinsurance at the time of service. In accordance with our participation agreements with third-party payers, we cannot waive or discount co-payments. Payment is due upon receipt for any balance that is billed to you.

Changing or re-coding claims once they have been submitted constitutes fraud and we **do not** do this under any circumstances.

If multiple or complex medical issues are discussed and managed at a routine physical exam, an additional office visit may be billed and any subsequent charges will be your responsibility.

The office bills only for services performed by our providers. The laboratory companies are a separate entity, and will bill you or your insurance company for labs that are performed. If you have any questions regarding your lab bill, please contact that laboratory or your insurance company.

As a courtesy, we attempt to contact every patient to remind them of their appointment; however, it is the responsibility of the patient to arrive on time whether or not a reminder call was received. We ask that you notify us 48 business hours in advance to cancel and/or reschedule your appointment. Please be aware that failure to do so may result in a missed appointment fee of \$25.00 and \$50.00 for a missed physical, well-child exam or procedure.

Returned checks will incur a \$30 service charge.

It is your responsibility to notify our office if there is a change of name, insurance coverage, residence, and/or phone number.

We **do not** participate with Medicare or Medicaid; we attempt to notify every patient prior to their age of being eligible for Medicare; however it is the responsibility of the patient to seek a Medicare participating provider.

In the event that your account was paid late, placed on a payment plan, or your account is placed in collection status, any additional fees incurred due to this, will be added to your outstanding balance. This includes but is not limited to late fees, collections agency fees, court costs, interest and fines. If the account is sent to collections or if we receive a bankruptcy notification we reserve the right to dismiss you as well as any family members from the practice.

Business hours are from 7:30am to 5:00pm Monday through Friday. Medical care received before or after these hours or on weekends, as well as emergent office visits without appointments, may have additional fees per standard billing procedures. Currently, these charges may be up to \$50 per visit.

Please sign below so that we may confirm that you have read and understand our office policy regarding insurance and your responsibilities as a patient of Aspen Family Care.

Dear Patient:

Promoting health and treating illness are important to all of us. We understand this complicated process can be confusing, especially when multiple parties are involved (including lab services, radiology, referrals, etc). As partners in your health, Aspen Family Care providers recommend testing based on our extensive education and experience, always keeping your best health interests in mind. Because healthcare is our specialty, we stay up to date on the latest technology and testing to assist in such management.

As part of increasing complexity in payor systems, it is important that you, the patient, be aware of how your insurance plan works and to know which lab your plan is contracted with. With insurance plans constantly changing it is impossible for us to know your individual coverage of services with third parties, particularly lab services. There is a current trend to limit laboratory coverage with many insurances. Tests that may have been covered in the past may not be covered now. If this is a concern to you, we recommend you contact your insurance company FIRST with the specific ICD-10 and CPT codes to find out what they cover BEFORE getting your laboratory work done. We also recommend contacting your insurance company to find out how all types of office visits are covered by your plan.

ICD-10 codes are diagnosis codes used to communicate to your insurance company why labs are ordered. These codes are located on your laboratory requisition form.

CPT codes are used to communicate with your insurance company what specific labs are ordered. To obtain these codes, you will need to contact the lab and ask them to look up the codes for the various testing placed on your lab requisition.

Should you choose not to proceed with testing as recommended, it is important you know that this can result in undiagnosed illness, late diagnosis, or poor medical management of conditions. This can affect quality of life, as well as increase risk of death with certain conditions. In this situation, it is to be understood that not completing testing as recommended would be against medical advice and the responsibility for issues that could arise from the not doing testing is yours.

Labs often offer discounted rates for labs not covered. However to take advantage of this, they must know you plan on paying prior to billing of insurances. Once billed, if denied, the balance is typically billed at full price.

Thank you very much.
