

TRANSPARENCY IN HEALTH CARE PRICES

The Transparency in Health Care Prices Act took effect on January 1, 2018. This law requires healthcare providers to give patients the price for the 15 most common services/procedures they perform. This serves as a way of providing general estimated cost information on common services.

There are many health insurances plans with different copayments, deductibles, and co-insurance. We highly recommend and encourage patients who have private health insurance to understand their financial responsibilities for health services provided at Aspen Family Care.

The list below is an estimate and depends on each patients' circumstances. There may be additional costs for other services such as labs, procedures, immunizations, tests, etc.

Please feel free to contact our billing office at 303.476.6948 if you have any questions or if you would like to discuss payment options.

CPT4	UNIT PRICE	DESCRIPTION
99213	\$140	Established Patient Office Visit - Average Complexity Level
